

Enhance your Care activities with the award-winning Mobii Magic Table.

Thanks to Penylan House Nursing Home for sharing this photo with us! ♥

OM INTERACTIVE

Improving well-being and bringing joy, OM Interactive's cutting-edge projection systems engage, enable, and empower individuals of all abilities, creating moments of pure happiness and laughter. Step into a world where technology and imagination converge, nurturing smiles, and deepening connections. Experience the extraordinary magic of providing care like never before, and embark on a journey of limitless potential.

CARE RESEARCH

In collaboration with Care Research, we've embarked on an extensive research project exploring the impact of the Mobii Magic Table across England.

Care professionals have witnessed positive changes in those who have used our systems including:

- Emotional stability
- Overall mood and outlook
- Sense of self-worth and belonging
- Physical effort and energy levels
- Willingness to socialise
- Ability to enjoy shared activities

RESEARCH FINDINGS

1. An overwhelming **96%** of respondents recommend the Mobii.
2. Reminiscing becomes a joyful experience as **92%** of participants share their memories and past experiences during sessions.
3. Over **90%** witnessed positive impacts on residents' physical abilities, participation, and movements.

"It's moving to see the impact the Mobii table has. The therapeutic benefits are incredible, and we've seen families having a great time as they experience the table alongside their loved one."

Martyn Dawes,
Home Manager of Caddington Grove, Hamberley Care

SMART VIEW - EASILY PROJECT CONTENT FROM YOUR OWN DEVICE

Effortlessly connect compatible HDMI devices—such as mobile phones, laptops, or game consoles—to the Mobii for seamless content sharing.

Perfect for inter-generational sessions, for users of all abilities.

EDITABILITY

Personalise your Mobii experience by adding your own images, videos, sounds and music.

Customise activities with personal photos to create engaging sessions that resonate with users. Its user-friendly interface makes it easy to create activities, and it's a great way to revisit the past.

*Does not apply to the omiVista Budii

CARE SYSTEMS

There are several versions of our interactive systems, each fully self-contained, and pre-loaded with tailor-made activities to suit your specific needs.
