

# Bringing Joy to Care through Interactive Sensory Projection

## OM INTERACTIVE

**Improving wellbeing and bringing joy**, OM Interactive's sensory projection systems support meaningful engagement for people of all abilities. Used across care environments, they **encourage movement, cognitive stimulation, and social connection** – creating positive moments for residents and care teams alike.

Scan to watch the Mobii support engagement and wellbeing in care.

## CARE RESEARCH

In collaboration with Care Research, we've embarked on an extensive research project exploring the impact of the Mobii Magic Table across England.

**Care professionals have witnessed positive changes in those who have used our systems including:**

- Physical effort and energy levels
- Willingness to socialise
- Ability to enjoy shared activities
- Sense of self-worth and belonging

### RESEARCH FINDINGS

1. **96%** of respondents recommend the Mobii.
2. **92%** of participants share their memories and past experiences during sessions.
3. Over **90%** witnessed positive impacts on residents' physical abilities, participation, and movements.

## EXECUTIVE INSIGHTS

new

**Discover What's Driving Real Change in Care Environments.**

OM Interactive's 2025 Executive Insights Report explores how care teams are reducing workload, while supporting staff retention, and morale through interactive technology.

Based on a nationwide survey of care professionals using the Mobii, the report provides clear, evidence-based insights into workforce wellbeing and quality of care.

Ball Games

## SMART VIEW - EASILY PROJECT CONTENT FROM YOUR OWN DEVICE

Effortlessly connect compatible HDMI devices—such as mobile phones, laptops, or game consoles - to the Mobii for seamless content sharing.

Perfect for inter-generational sessions, for users of all abilities.

new

## LIFE STORIES & PERSONALISATION

Personalise your Mobii experience by adding your residents' own images, videos, sounds and music.

Customise activities with personal photos to create engaging sessions that resonate with users. Its user-friendly interface makes it easy to create activities, and it's a great way to revisit the past.
